MEMORANDUM

TO WHOM IT MAY CONCERN:

FROM: Terri Gearon, Financial Services Director /s/ Terri Gearon

SUBJECT: ADDENDUM NO. 3
JUDICIARY PROJECT NO. J19313
DESIGN, FURNISH, INSTALL, AND MAINTAIN A PHOTOVOLTAIC SYSTEM WITH BATTERY STORAGE FOR THE RONALD TY MOON JUDICIARY COMPLEX IN KAPOLEI

Transmitted herewith is a copy of Addendum No. 3 providing responses to questions submitted to RFP J19313.

Should you have any technical questions regarding this Addendum, please call the Officer-In-Charge for this project Dee Dee Letts via phone at (808) 538-5990 or via email at deedee.d.letts@courts.hawaii.gov. Other questions may be directed to Kelly Kimura of the Judiciary Contracts & Purchasing Office via phone at (808) 538-5805, or via email Kelly.Y.Kimura@courts.hawaii.gov.

Answers to question submitted on RFP J19313 received May 23, 2019 by 4:30 PM.

1. **Request for Information –**
   i. HECO 15 Minute Interval Data will request **Attached**
   ii. HECO 12 Month Utility Bills Have **Attached**

   In addendum 2 posted May 24, 2019

   iii. SHT NO: 27 DWG NUMBER: C-106 Description: General Utility Plan
   iv. SHT NO: 54 DWG NUMBER: C-506 Description: Parking Details
   v. SHT NO: 193 DWG NUMBER: A-201 Description: North Elevation
   vi. SHT NO: 194 DWG NUMBER: A-202 Description: West & East Elevation
   vii. SHT NO: 195 DWG NUMBER: A-203 Description: South Elevation
   viii. SHT NO: 1055 DWG NUMBER: E-A401 Description: Electrical Room Detail Plans
   ix. SHT NO: 1060 DWG NUMBER: E-A601 Description: Partial One Line Diagram 1
   x. SHT NO: 1061 DWG NUMBER: E-A602 Description: Partial One Line Diagram 2
   xi. SHT NO: 1067 DWG NUMBER: E-A608 Description: Lighting Control Diagrams
   xii. SHT NO: 1069-1073 DWG NUMBER: E-A702-E-A706 Description: Panel Schedules (outdoor lighting)

Answer: Information was posted.

General Note

2. RFP note: 5.2 I. Evaluation Criteria: Is this a Typo? *System provides 400 or more kWh's? Assuming this should be 400 kW?*

   Answer: yes it is a typo and should be 400kW

Generator and BESS

3. Is the CAT 750 kW Generator's primary function for the JDF? See attached drawings

   Answer: The primary function is to run emergency lighting at both JDF and the Court House, Refrigeration units in the JDF kitchen (freezers and refrigerators) and Air Conditioning for the IT rooms only.

4. When does the 750 kW Generator not cover the loads in back-up mode?

   Answer: It only covers the loads noted above and covers them only for 8 hours.

5. Is the Generator or Battery Energy Storage the preferred anchor resource?

   Answer: The purpose of the PV system is to reduce the operating costs at JDF and provide emergency back up to keep the facility fully functioning in the event of a power outage. Ideally the system would keep the batteries at full storage for an emergency and once at full storage would use the additional power generated to operate the day to day activities at the JDF to defray the electrical bills. The long term goal is to make JDF self-sufficient for its energy needs. The generator in the event of a power outage would continue to function to maintain the minimum systems it currently maintains for 8 hours. During those 8 hours the batteries would power the other system necessary for full operation of the JDF and would assume the full load when the generator dropped out.

<u>Sheriff's Supervision</u>

6. Will Sheriff's supervision be required for work inside fenced areas outside the building?

   Answer: NO

7. Please clarify exactly which areas require Sheriff's supervision? Do they need in mechanical electrical room and generator

   Answer: Sheriffs will not be needed in mechanical electrical room and generator room. Facilities staff will be accompanying the winning bidder when work is being done in these rooms. Any work done in the secured areas of JDF will need sheriff escort.

<u>Conduit</u>

8. What are the requirements for any external conduit on the building or roof? Are we allowing, must it be painted does it need to be hidden roof running no or just on flat non-tile rook or what.

   Answer: Conduit can be run on the building externally. It must be painted to match but not hidden. It is not allowed on tile roofs but may be permitted on other roofs.

Temporary Parking

9. Please outline the areas designated for temporary parking.

   Answer: See attached drawing. Temporary parking will be developed by the Judiciary but will only accommodate a third of the staff parking stalls at any one time. The phasing of the construction work should take this into consideration.

10. Can temporary parking be distributed in more than one site?

    Answer: N/A

11. Please list the security requirements for temporary parking.

    Answer: N/A

12. Will the temporary parking lot need to be illuminated at night?

    Answer: N/A

13. Can dirt road adjacent to south east property line be used for parking?

    Answer: No this property belongs to Campbell Estate.

Construction

14. Please outline the areas designated for construction staging and materials lay down areas.

    Answer: See attached drawing.

Other

15. Can we excavate a trench with digging equipment and men inside the Juvenile Detention Facility (JDF) fenced yard? Will excavation within the fenced yard require added security?

    Answer: Yes you may trench in the fenced yard no security will be required unless the fenced yard is left open overnight. However, you need to note that the use on that site is 24/7 and is noise sensitive. Also at the end of the job all fencing and grassed areas disturbed must be restored to pre-construction condition.

16. Please confirm any pre-approved battery locations.

    Answer: see attached drawing

17. Will the security cams be removed and relocated by others?

    Answer: Yes they will be removed by others.

18. Will the demo of the light poles and bases be done by others?

Answer: No this will be the responsibility of the contractor if necessary.

19. Will any required tree removal be performed by others?

Answer: No this will be the responsibility of the contractor. If it is temporary and the tree can grow back after construction then stump removal is not required – if permanent removal stump removal is required.

20. How much site lighting will be needed or requested under the PV Canopy?

Answer: Lighting shall be equal to or better than the existing lighting. Sheet E-A003 shows that the design criteria for this parking area was 0.5 Footcandles minimum; with a 10:1 Maximum to minimum uniformity ratio.

21. Will we be able to use existing lighting circuits to feed the Canopy lighting?

Answer: Yes

22. Is there a Geo-Technical review that has been done on the site and can that be shared with the group?

Answer: Yes this was part of addendum 2 previously posted.

23. What will be the safety requirements of this site as far as securing the area of construction during the boring of the hole and erecting of the steel structures?

Answer: The site should be secured to prevent trespassing or accidental injury to non-construction workers.

24. Is the $2.3MM budget a not-to-exceed maximum for this bid?

Answer: This is not a not-to-exceed maximum but there is not a lot of flexibility to exceed that amount.

25. Is there a minimum PV size required for a bid (in watts DC)?

See Section 2.0 (page 9) and Section 5.2 (page 20). A minimum capacity of 400 KW is the objective. Should that not be possible, for whatever reason, Section 5.2 outlines the evaluation criteria that will be used to evaluate any systems that have a capacity of less than 400 KW.

26. Is there a minimum battery size required for this bid?

Answer: See Section 2.0 (page 9). The goal is to provide enough power to "run" the JDF for a minimum of 24 hours. During 2018, the JDF used an average of 1,800 KWh per day. See attached HECO bill. If the bid submitted does not provide, for whatever reason, the minimum battery storage requested then the container for the battery backup should be sized so that sufficient batteries can be added in the future to fulfill this minimum.

27. Any restrictions to work hours onsite?

Answer: No with the following caveats: 1) Noise levels are of concern due to surrounding residences and the 24/7 nature for the JDF as well as court activities. DOH requirements to not exceed 60DbA at night must be met and as close to this as activities can stay during the day is the best. Activities that would cause loud noises would be best scheduled before 7:45 or after 4:30 or on weekends. During court hours (M-F 7:45 – 4:30) if Judges complain that the noise from the construction activities is interfering with court activities the construction activities creating that interference may be asked to stop, regardless of the "decibel level" of the noise.
